

http\_convert\_method  
\_to\_number

```
graph LR; A[http_convert_method_to_number] --> B[bstr_cmp_c]; B --> C[bstr_cmp_ex];
```

The diagram illustrates a linear sequence of three functions. The first function, 'http\_convert\_method\_to\_number', is highlighted with a gray background. It is connected by a dark blue arrow to the second function, 'bstr\_cmp\_c', which has a white background. This second function is then connected by another dark blue arrow to the third function, 'bstr\_cmp\_ex', also with a white background. All three functions are contained within rectangular boxes with black borders.

bstr\_cmp\_c

bstr\_cmp\_ex
